One of London's Leading M&E Contractors for 30 years

Welcome to our
October 2024 Newsletter, highlighting
our latest news and projects.

Pipe Freezing Services

Our specialist
Liquid Nitrogen Pipe Freezing Services were
required to fix a leaking flange at the
InterContinental Park Lane, London. While
onsite our services were extended to supply
and install a new 150mm Wheel Operated
Butterfly Valve for future use.

Mechanical Services

At the historical **Cutty Sark** in Greenwich, our task involved supplying and installing **130**

meters of new stainless steel grilles and supports, by replacing the old grilles that had deteriorated over time.

All work was completed outside of operating hours, ensuring no disruption for visitors.

Electrical Services Since 2015 IDWe Ltd have had the privilege of providing the power supplies to bring the prestigious '**Spirit of Christmas**' lights to life above Regent Street and St James' neighbourhoods – *and this year is no different!* Our team are gearing up to

ensure the smooth running of the world-famous London event. The lights will be switched on Thursday, 7th November 2024.
