Control System Replacement at Feltham Centre for Health

During the installation of new boilers and heating plant, Magpie BMS Services simultaneously replaced the control system.

Key Highlights Included:

- ✓ Design, manufacture and installation of a new form 2 control panel.
- ✓ A requirement was to keep the plant continuously operational.
- ✓ The control system was engineered around the *Trend IQ5* System.
- ✓ Providing an 9" touchscreen HMI to provide user access to *Trend's IQView* functionality.
- ✓ Improved efficiency and completely compatible with the new plant.
- ✓ Increased the life expectancy of the control system.
